## International transfer of personal data from the UK and transfer of personal data from the European Economic Area ("EEA") and other territories to the UK

### International transfer from the UK

Your data may be transferred to, and stored at, a destination outside the UK, including the EEA and Israel. Some third party providers are outside the UK (e.g., our policy administration software vendor is based in Israel and personal data could be sent to Israel for software management and debugging purposes). Also, we may transfer your data outside the UK if you are or have gone outside the UK.

The UK government has decided that Israel ensures an adequate level of data protection because as of 31 December 2020 it recognises all European Commission adequacy decisions that existed on that day (which includes Israel, Jersey, Guernsey and the Isle of Man). The UK government has also determined that all 27 EU and EEA member states as at 31 December 2020 have adequate data protection laws.

Where there is no adequacy decision (referred to in the UK as an 'adequacy regulation'), we shall transfer your data internationally provided there are appropriate safeguards such as:

- your explicit consent
- an International Data Transfer Agreement ("IDTA") or use of the Addendum to the EU standard contractual clauses
- binding corporate rules or
- approved codes of conduct/certification.

The IDTA and Addendum referred to above can be used from 21 March 2022 and transitional arrangements also apply as described at <https://www.ico.org.uk>.

### Transfer of EEA individuals' data from the EEA to outside the EEA

The data of EEA individuals (e.g., Members in the Republic of Ireland) shall be transferred to, and stored at, a destination outside the European Economic Area ("EEA"), including the UK and Israel. Most third party providers are outside the EEA (e.g., our policy administration software vendor is based in Israel and personal data could be sent to Israel for software management and debugging purposes). Also, we shall transfer your data outside the EEA if you are or have gone outside the EEA.

The European Commission has decided that Israel ensures an adequate level of data protection compared with the EU - this is called an adequacy decision. Before 31 December 2020, the UK applied for an adequacy decision from the European Commission and the European Commission's data protection adequacy decisions are available on [https://ec.europa.eu/info/law/law-topic/data-protection/international-dimension-data-protection/adequacy-decisions\\_en](https://ec.europa.eu/info/law/law-topic/data-protection/international-dimension-data-protection/adequacy-decisions_en).

Where there is no adequacy decision, we shall transfer your data outside the EEA provided there are appropriate safeguards such as:

- your explicit consent
- standard data protection clauses in contracts
- binding corporate rules or
- approved codes of conduct/certification.

We shall take all reasonably necessary steps with third party providers to make sure that your data is treated securely and in accordance with an equivalent standard as within the EEA.

When we transfer your personal data outside the EEA, we will take all reasonably necessary steps to ensure your data is protected to an equivalent standard as within the EEA.

## Your rights

You have rights under the UK Data Protection Legislation or (where applicable) the EU Data Protection Legislation that relate to the way we process your personal data. More information on these rights can be found on the Information Commissioner's website [www.ico.org.uk](http://www.ico.org.uk) ([www.dataprotection.ie](http://www.dataprotection.ie) in the Republic of Ireland). Unfortunately, sending information via e-mail is not completely secure; anything you send is done so at your own risk. Once received, we will secure your information in accordance with our security procedures and controls.

We will keep your personal data in accordance with our internal Retention Policy.
