

**Protecting your lifestyle.
Securing your future.**

An introduction to Dentists' Provident

About us

Dentists' Provident was started by dentists over a hundred years ago as a membership organisation to protect each other from the financial consequences of illness or injury.

We have been part of the profession ever since, working together to support dental professionals, just like you, with our highly flexible plans which are designed to be as individual as you are.

We are still owned and run by our members who are at the heart of everything we do. We are there when you need us, from university to retirement and beyond.

Contact us

If you need more information about us or our plans, usually, your financial adviser is your first point of contact, as we are not allowed to give you financial advice. This means we can't recommend whether or not our plans are right for you. If you don't have a financial adviser or would like to speak to us, we are happy to answer any questions you may have to help you make your own decision.

Address: Dentists' Provident, 20-21 Red Lion Court, London, EC4A 3EB

Calls are recorded for our mutual security, training and monitoring purposes.

What do we do?

We are a leading provider of income protection insurance to dental professionals in the UK and the Republic of Ireland. As a specialist, we only focus on income protection insurance and our plans are only available to dental professionals.

Our plans are designed by experts working closely with dental professionals, just like you. So you can be sure that whatever stage your career is at, we have a plan to suit your lifestyle.

A young and healthy dentist in their early 30s suffered a serious illness, which has left them with severe physical disabilities. As a result they will never again be able to work as a dentist. Nobody ever expects to have a life changing event such as this, let alone so early in their lives. Having income protection cover gave our member and their family the vital breathing space they needed to cope with the changes life thrust upon them.

Our business principles

As a mutual organisation we have no external shareholders and our members are not only our customers but our owners as well. Our ownership structure eliminates any conflict between the interest of the customers and those of the shareholders, which allows us to focus exclusively on what is in the best long term interests of our members. This clarity of purpose has helped us provide financial security to thousands of dental professionals for over a hundred years.

Being owned and run by dental professionals, we do not make profits for anyone else - our profits are only ever used to improve the products, services and benefits we provide our members. This is why we believe that our members should never have to compromise on levels of service or the quality of their cover.

How do our income protection insurance plans work?

Our income protection insurance plans help replace the income you lose if you can't work because you are ill or injured. Our plans are not designed to pay benefits if you cannot work for any other reason, for example if your contract ends, your business ceases trading or if you choose to stop working.

Who is income protection insurance for?

Having an accident, illness or injury is not something we normally think about however, on top of the obvious physical and mental effects of being unwell, not being able to work could put you and your family under serious financial strain.

If you can't work, you are likely to find that your income reduces or stops altogether, whether from your own practice, the NHS or sick pay from your employer, however your bills and other financial commitments won't. This is where income protection comes in by helping to replace the income you lose by not being able to work.

Whether you are young or old, single or with a family - income protection can give you the financial support you and your family need so that you can concentrate on your recovery, however long that may be.

A dentist only in her 30s found a lump that was diagnosed as breast cancer. The Dentists' Provident income protection plan paid her during the ten months she spent recovering from her illness, giving her the peace of mind that her finances were protected during the time she needed to recuperate and make a gradual return to work.

Dentists' Provident in numbers

	2019 £m	2018 £m
Premiums from members	14.1	14.1
Claims paid to members	5.0	4.8
Bonuses paid to members	7.4	7.7
Total assets	346.8	327.9

Applying and claiming

How to apply for a plan

You can apply for our plans through our website www.dentistsprovident.co.uk. Our online application process is fast and convenient. Once we receive your application, we will call you for a health and lifestyle interview (not necessary for our Foundation protection plan) to collect the information we need to decide on the most suitable terms and conditions for your plan.

You can also apply for our plans through your independent financial adviser or by completing a paper application (not available for our Foundation protection plan). You can obtain an application pack by contacting our member services team.

We are not allowed to give you financial advice, which means we can't recommend whether or not our plans are right for you. If you don't have a financial adviser or would prefer to speak to us, we are happy to answer any questions you may have to help you make your own decision.

Making a claim

Since we are owned by our members, their interests always come first. This is never more so than when you need to make a claim. Our claims process is simple and easy. Once you have completed your claim form, simply ask your doctor to complete the confidential medical certificate at the back and then return your fully completed claim form to us along with the evidence of your income. If you need help our claims team is only a phone call away.

Other ways your membership supports you

As a member, in addition to your cover, we support you with access to information and guidance from relevant, reputable third parties to help in your practising and personal life. Whether it's advice on posture and back care, offers for ergonomic equipment, complimentary preventive care, exercise classes and techniques or reduced prices for lectures, we want to support your health and wellbeing throughout your membership.

We regularly produce publications with valuable third party offers, information, news and articles. For the latest information about our exclusive member benefits, please see the member benefits page on our website.

A member of Dentists' Provident in their 30s had repeated musculoskeletal problems and as a result was unable to work for nearly a year. Our income protection plan gave them the financial security they needed to focus on their recuperation and gradual return to work without worrying about their household finances.
